THE PRACTICE

Some patterns seem older than we are.

Dhiraj Sarda

A fear with no clear cause. A headache that returns with every stressful week. A relationship story that keeps repeating. Often the root sits deeper than the conscious mind can reach.

Through deep, guided relaxation, Past Life Regression and Transpersonal Hypnotherapy help you turn inward safely — to meet the memories, feelings and images behind today's patterns, and to release what you no longer need to carry.

You stay aware and in control throughout every session.

Meet Dhiraj

Dhiraj Sarda is a certified Past Life Regression Therapist and Transpersonal Hypnotherapist based in Delhi, trained at the International Past Life Academy (IPLA). He guides each session with patience, warmth and complete confidentiality.

THERAPIES

How I can guide you

Past Life Regression

Explore memories and imagery from other lifetimes that may hold the root of present-day fears, relationship patterns and unexplained emotions.

Transpersonal Hypnotherapy

Deep, guided relaxation that works with the subconscious mind — for stress, habits, confidence, sleep and emotional release.

Inner Child Healing

Meet the younger you who still carries old hurt, fear or loneliness — and give that child the safety, love and understanding they needed.

Age Regression

Revisit earlier moments of this life that still shape how you think, feel and react today.

Womb Regression

Gently explore the earliest impressions — in the womb and around birth — that may lie beneath deep-seated feelings.

Guided Meditation

Calming meditation and breathwork to quiet the mind, release tension and return to inner peace.

YOUR SESSION

Your healing journey

1

A first conversation

You share what you're facing and what you hope for. Every question is answered.

2

Deep relaxation

Gentle guidance into a calm, focused, safe inner state.

3

Regression & healing

You explore and release, with me beside you, at a pace that feels right.

4

Integration

We close gently and reflect on what you carry forward.

MY INSPIRATION

Remember your strength

Hanuman ji had forgotten his own boundless strength — until Jambavan reminded him, and he leapt across the ocean. I believe each of us carries a strength like that, quietly forgotten beneath old fears and patterns. My work is simply to help you remember it.

नासै रोग हरै सब पीरा ।
जपत निरंतर हनुमत बीरा ॥

"Illness fades and every pain is eased for the one who keeps remembering brave Hanuman."

SHRI HANUMAN CHALISA

With faith in Hanuman ji — Sankat Mochan, the remover of troubles.

GOOD TO KNOW

Will I lose control?

No. You remain aware and in control, and can open your eyes and end the session at any time.

Do I need to believe in past lives?

No. Whether you see the imagery as memory or as metaphor, it can still bring meaningful insight and relief.

Is this instead of my medicine?

No. These sessions are complementary. Keep following your doctor's advice; healing work can support you alongside it.

Is it available online?

Yes — over a private video call, or in person in Delhi.
